

Rock Splitter Series

K25W Series

C15W Series

Dust Free, Vibration Free, Silent, Safe, Powerful
 These keywords describe Hirado's renowned Rock Splitter, available in a variety of models.

The ideal tool for not only breaking rock, but also breaking concrete structures. Especially useful in places with restricted access and noise/vibration regulations (Subway, Hospital, Internal Demolition etc.)
 With less than 65 DbA, Hirado's Rock Splitter is one of the most silent demolition tools on the market.

While lightweight, the Rock Splitter carries extreme force, with a splitting force up to 6.5 Meganewton/663 Ton.
 Versatile and mobile, the Rock Splitter is the must have tool for the demolition expert.
 To be used in combination with Hirado's Hydraulic Pump (Air or Electric)

Features

Strong Splitting Power

Low Noise Emission

Dust Free

Safe

Rock Splitter Series Model Selection Chart

Models	Wedges			Full Length (mm)	Weight (mm)	Bit Diameter (mm)	Drilling Depth (mm)	Breaking Power (mn / ton)	Applications
	Dia. (mm)	Effective Length(mm)	Splitting Distance(mm)
